### A Note From *Our Founder*:

With a new year comes a fresh start – an opportunity to set new financial and organizational goals. What's better than starting with a clean slate? For next year, I encourage YOU, a change-making social impact leader to focus on financial sustainability.

Think about it from another perspective. Your benefactors are supporting your mission today, and in their eyes, to infinity and beyond. It's vital to leverage every single dollar your organization brings in and become true stewards of the resources you already have. A monumental task? Yes, it is! Highly detail oriented? - Start Utilizing Financial Dashboards: We Use Them!

- Multi-Year Budgeting is a Must
- Understand the Nonprofit Starvation Cycle & Avoid It
- Let Actionable Financial Data Lead Decision Making
- Can You Say Operating Reserves Policy?
